These articles of Furniture are almost as essential in your home as it is furnished today, as flour and sugar are to the kitchen for the preparation of our food. Why shouldn't they be?

We owe it to our families to supply a bright, attractive and a comfortable home. How quick one is apt to notice and remark about a cold, bare, uncomfortable house.

The reason is not always that we do not have the money. The inclination is lacking. If we could see these things as our families and friends see them, we would not hesitate.

Never hesitate to buy the durable, the right kinds at our store. We always have them.

Considerable unfavorable comment has been made in Montpelier over the fact that the Montpelier city council is paying five per cent. interest on temporary loans, while Barre is paying only 3.11 per cent. to a Boston house for a loan of \$37,500. The Montpelier council secures its loan from local institutions and in return is allowed two per cent. interest on deposits, so that it is considered by the council that eventually it gets practically the same rate as Barre does.
